

# PARENT ADVISORY GROUP

The Parent Perspective

St Anthony's School, Noble Park

# **BE PART OF THE BIGGER PICTURE**

- Being on the Parent Advisory Group is a great way of building meaning full connections and contributing to the delivery of improved outcomes for our children.
- To be part of the conversation that ensures parents local needs and interests are heard. To strengthening support networks for our children and families, through close collaboration & working together as group.
- As a parent being part of the Parent Advisory Group has given me valuable insight into the delivery of the strategy & the vision at St Anthony for the future.
- It provides a great opportunity to actively contribute to the delivery of the quality and service provided at St Anthony's.
- It is a fantastic opportunity to be part of St Anthony's family where Parents have a say in what matters most in their kids overall wellbeing in a range of aspects besides education.
- Last but not least it is a great way of giving back and being partners in the journey at the St Anthony's family.

Sid Samuel (Parent Advisory Group Member 2018)
