

“The simplest and most practical lesson I know... is to be good today, but better tomorrow.”

- ▶ *In partnership with the community, our students will strive for excellence and acquire the knowledge, skills and attitudes that ensure lifelong learning.*
- ▶ *St Anthony's empowers all people to contribute to the global community.*

In partnership with parents and the broader church, Catholic schools contribute to the life-foundation for students that is centred in Jesus Christ and grounded in truth, beauty and love. (Horizons of Hope)

Our Strategic Intent
 Our Mantra

**‘Every Person
 Flourishing
 &
 Known’**

Our Operating Principles

- *We do whatever it takes, learning from experience to inform our future.*
- *A sharp and narrow focus on actions that make a difference.*
- *An inquiry based and growth coaching approach to underpin our curriculum and learner growth.*
- *High impact teaching strategies.*

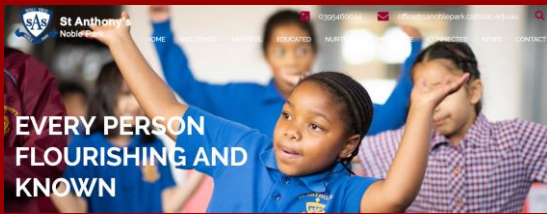

Curriculum design in a catholic school provides opportunities for the learning community to actively engage in collaborative, socially connected and relevant learning. With Community partners, entrepreneurial educators design curriculum that moves learning beyond the boundaries of the traditional school. (Horizons of Hope Curriculum Foundation Statement p6)

Our Core Values

- *We welcome and affirm.*
- *We inspire a love of learning.*
- *We embrace diversity and difference.*
- *We believe parent engagement and relationships improve learning outcomes.*
- *We believe all families have hopes and dreams for their children.*
- *We believe all families have the capacity to support their children’s learning and are equal partners with staff.*
- *We work in harmony for a just and peaceful world.*

Catholic schools honour the role of parents as the first and ongoing nurturers and educators of their children. In partnering with families this life giving relationship transforms the possibilities for each child and promotes optimal engagement, achievement and wellbeing.
